1938 Schools Assessment Causes Widespread Concern

Anglican Churches at Blairmore And Coleman To Welcome New Minister

Bishop Sherman Will Hold Induction Services on Wednesday, June 1.

On Sunday morning the new minister appointed by Bishop Sherman to the parishes of St. Luke's, Blairmore, will hold service at that place at 11 a.m., and at 7 p.m. he will hold service at St. Alban's, Coleman.

For some time he has been in charge of missions at Milk River and Coutts, working from St. Augustine's, Lethbridge. He will arrive this week and his induction to the two parishes will take place on Wednesday next, at 7 p.m. at Blairmore and 8:30 p.m. in Coleman.

All parishioners are urged to attend the respective services. The church officers at Blairmore will meet the bishop and Rev. Mr. Hague at a supper prior to the induction service on Wednesday, and Rural Dean Axon, of Macleod, will likely be present, as he will accompany the bishop from Macleod.

Following the induction service at Coleman, a parochial gathering will be held in the old country hall, at which parishioners are invited. Refreshments will be served and a social hour spent in meeting the bishop and the new incumbent.

The vestry at a meeting on Sunday evening decided to canvass all church members to ascertain the amount of financial support they can count on to pay the church expenses. A list of over 60 names was divided between

Bellevue People Observe National Holiday

Splendid Community Spirit Evidenced in Fine Program and Celebration on Victoria Day.

The maypole dance as danced on village greens in the old country is associated with May 1st. In the Crow's Nest Pass for some years this picturesque dance has been one of the attractive features of the annual Victoria Day celebration sponsored by Bellevue United church, under the energetic guidance of Rev. Richard and Mrs. Upton, assisted by a loyal committee.

This year the program was held in the arena, and proved very successful even though the maypole dance was given under electric lights instead of sunlight, and on a wooden stage instead of the village green. The crowning of the May Queen, who is elected to this exalted position by means of popular vote, was performed by Mrs. J. A. Brunet, of Blairmore, the queen being the pretty daughter of Mr. and Mrs. Upton, who though a May Queen, possesses the name of June. She was presented with a gold watch by Mr. C. Emmerson, as was also Nice Fidanto, of

Provincial Hockey Meeting At Calgary on Saturday

Interesting hockey news is expected to emanate from Calgary over the week end, when provincial hockey moguls as well as delegates from all senior clubs will meet at the Palliser hotel on Saturday.

In a letter from D. P. McDonald, president of the Alberta Association, Coleman are asked to send a delegate as well as divulge certain information re imports and transfers of players for next season. Dr. Hardy, of Edmonton, president of the Dominion hockey association, will be present.

In his letter Mr. McDonald takes pains to point out to the local executives that permission was granted to Canadian players to play in the B.C. amateur hockey association for one year only.

With Turner Valley appearing on the hockey horizon, and securing excellent talent to compose their 1939 "B" team, the "B" club of the Alberta association—the senior six-club woefully weak compared to other senior aggregations among which is Lethbridge and Coleman. This was exemplified in no uncertain terms when their super team, Calgary Rangers, were taken for a joy ride by the Trail Smoke Eaters.

Composition of the Alberta league is expected to include Coleman, Lethbridge, Turner Valley and Calgary in the south; Drumheller, Olds, and Edmonton in the north. The teams in each league, or section, will play each other probably three home and home games during the season with one trip made to the teams in the other section. In this manner all senior teams would have the opportunity of playing each other.

Regardless as to what decision the meeting comes to, it will be interesting to watch the reaction given Coleman and Lethbridge who were given the cold shoulder last year by the league, and the Alberta association who sat on the sidelines, helpless.

V. Ripley, of Calgary, and a former well known N.H.L. star, is being prominently mentioned as coach of Kimberley Dynamiters. Johnny Achtnizer, coach for the past three years, resigned last week.

\$500 NEEDED TO CLEAN UP

SPORTS FUNDING

In anticipation of sponsoring a sports day in Coleman, the local Elks' club appointed a committee to investigate the possibilities of promoting such a day. On Thursday the committee made its report which stipulated that the only obstacle to the plan was the so-called money. They estimated a cost of between \$400 or \$500 would be necessary in order to remove rocks and fill in

While the Elks are well known for their community welfare spirit, they took the view that should they spend that much money there would be no guarantee that the field would be in shape for such a sports day the following year as no local club would undertake the responsibility of keeping the field in shape. Until the field is cleaned up the lodge will not act on this worthy project.

TENNIS CLUB TO SPONSOR DANCE

The energetic executive of the local tennis club are going to sponsor a dance in the community hall on Friday, June 3rd. Proceeds will be used to improve the grounds. A record number of juniors have

COLEMAN HOMING SOCIETY

Red Deer Race Flown on May 22nd. Liberated at 6:33 a.m. in lovely weather, the birds came dropping in out of clear skies in such a way as to cause a thrill to the numerous spectators stationed at the different lofts watching the birds come in.

Mostly all members had birds among the leaders and quick trapping was necessary to be among the winners.

The first three birds clocked in were entered for the Nomination Stakes, so they were winners in the Open Race and Nomination Stakes.

1st F. Hedington. Time clocked in 1:28:43 a.m.
2nd A. Biggan. Time clocked in 1:30:43 a.m.
3rd M. Tarcson. Time clocked in 1:32:14 p.m.
Hunter's Race prizes:
Hunter's Bakery, S. Janostak's Grocery and West End Meat Market.

Next race will be from Edmonton on May 29th. Members to look for birds at C.P.R. depot at 12 noon, May 28th.

Football Season Opens Here on May 29 Kimberley vs. Locals

Kimberley, playing here on May 29th, will open the football season at the local grounds. James Park, local club secretary, has had little co-operation from local supporters in his attempts to form a committee. Three meetings have been called and each was cancelled because of poor attendance. He fully expects, however, to form a team capable of defeating Kimberley.

Fernie organized their club last week and since Coal Creek have failed to make application for entry into the league it is expected the Fernie team will be composed of stars from Fernie and Coal Creek.

Michel team will be composed chiefly of youngsters. It is secretary A. Bartram's ambition to promote a winning team with these boys in order to create more interest in the game both at Michel and Natal.

Kimberley are expected to field the same team next season with very few changes. "Smilin'" Harry Brown will certainly be on deck ably supported by several youngsters and the old battle cry of "heed 'er, heed" will resound over the grounds.

Both Kimberley and Michel have entered the Dominion Challenge cup competition and will play the first round next season. The winner will represent the Crow league against the representative of the Lethbridge district.

Paint whippers have been heard in various quarters in support of a golf course during the past week. If that same "whispering" should grow to a louder sound, it is not unlikely that those desiring to organize a club could ferret them out, machinery being taken in motion where action could be taken in the matter.

In seeking estimates as to cost of putting the old course back into shape The Journal has received figures ranging from \$300 up to \$5000. However since it is not the intention of those persons interested to erect a palatial club house it is expected a sum of \$300 to \$500 would be sufficient to start the ball rolling.

BASEBALL CLUB FAILS TO ORGANIZE—FIELD UNFIT FOR PLAY

Coleman, for the second successive year, has been left out in the cold as far as baseball is concerned. At a meeting of the C.N.P. Baseball Association, Coleman was not represented. The local representative team from Lundbreck to Elk Valley were present and a six-team league was formed.

Last year Angelo Gentile sponsored a team, but rather than play a "pile at the local 'ball park'" he chose to transport his team to Blairmore where they played their home games. This year Coleman talks with one or two councillors but failed to secure any definite promise whereby the local field would be put into shape.

been seen on the courts and several show real promise of becoming seniors worthy of provincial ranking before many years have passed. Encouraged by the seniors in developing new strokes to improve their game, it is expected several will take the opportunity of entering the southern Alberta tournament to be staged at Lethbridge in July. Two or more senior members will compete at the provincial tournament to be played at Banff in August.

COLEMAN JUVENILES TROUNCED HILLCREST IN SOCCER GAME

Coleman Juveniles, in their first game of the season, trounced Hillcrest 4-1 in a local game held here Tuesday by a convincing 4-1 score. John Moore, star inside right for the locals, scored his team's four goals, Gardiner scored for Hillcrest.

Coleman were the better coached team and had an edge during practically the entire game. Their passing attack at times had their opponents helpless and they soon had a two goal advantage.

Hillcrest finally crashed through a sturdy Coleman defence to score early in the second half, Gardiner beating Zeula with a low hard shot. Moore ably assisted by his forwards booted Coleman two more goals before the end of the game.

Coleman is purely a school team under the management of Ray Spillers. Mr. Spillers was recently granted a loan by the school board and has formed a team which is a credit to the school. Jim Anderson is coach and David, a local boy, has been one of their Hillcrest teams as well as Frank are expected to be played in the near future.

Boost in Valuation of Householders Properties and Increase in Mill Rate Creates Surprise and Many Appeals Listed—Ratepayers Ask Reason of Big Tax Increase—Trustees Issue Statement.

Not for many years has there been an assessment made on property for the levying of taxes for the school district, with the result that there are many increases on householders property, ranging from 50 to 100 per cent and on some business houses on stock up to as high as 200 per cent.

In addition to the increases in valuation, the mill rate proposed this year is increased from 18 to 20 mills. Increase in valuation and property not heretofore assessed increased the total assessment from \$1,926,178, to \$2,222,204, an increase of \$296,026.

Some properties have been decreased in valuation by the assessor, as shown on the assessment roll, open for inspection at the office of the school district.

Last year the exact cost of operation of the schools was \$40,934.51 and there was collected by way of taxes, government grants and educational tax \$35,691.97, showing a deficit of receipts over expenditures of \$5,242.54. This deficit is caused by the large amount of unpaid taxes, which at the end of 1937 totalled \$11,599.15. It serves to show that the prompt taxpayer has to pay for the defaulters and the slackers who spend money in other directions and allow taxes to accumulate against their property. Stringent methods will have to be adopted against those defaulters who can pay in order to lighten the burden of the prompt payers.

The trustees are budgeting for net receipts of \$48,482.40 for 1938. It is proposed to carry on with one less teacher in the high school, which will reduce the item of \$25,000 set aside for teachers' salaries. The proposed improvement to school grounds are budgeted for, owing to the heavy taxes required this year. An added expenditure was the improvement to the principal's residence, costing \$1,750.00, for which he pays rent of \$300 per year.

The following statement authorized by the trustees will furnish details of the estimated expenditures and receipts for 1938.

Revenue from Tax Roll assessment for 1938, \$44,444.00
Education Tax, 2,000.00
Government Grant, varying, 4,738.00
Rent from principal's residence at \$25.00 per month, 300.00

Revenue from Tax Roll assessment for 1938, \$44,444.00
Education Tax, 2,000.00
Government Grant, varying, 4,738.00
Rent from principal's residence at \$25.00 per month, 300.00

Revenue from Tax Roll assessment for 1938, \$44,444.00
Education Tax, 2,000.00
Government Grant, varying, 4,738.00
Rent from principal's residence at \$25.00 per month, 300.00

Revenue from Tax Roll assessment for 1938, \$44,444.00
Education Tax, 2,000.00
Government Grant, varying, 4,738.00
Rent from principal's residence at \$25.00 per month, 300.00

Revenue from Tax Roll assessment for 1938, \$44,444.00
Education Tax, 2,000.00
Government Grant, varying, 4,738.00
Rent from principal's residence at \$25.00 per month, 300.00

Revenue from Tax Roll assessment for 1938, \$44,444.00
Education Tax, 2,000.00
Government Grant, varying, 4,738.00
Rent from principal's residence at \$25.00 per month, 300.00

Revenue from Tax Roll assessment for 1938, \$44,444.00
Education Tax, 2,000.00
Government Grant, varying, 4,738.00
Rent from principal's residence at \$25.00 per month, 300.00

Revenue from Tax Roll assessment for 1938, \$44,444.00
Education Tax, 2,000.00
Government Grant, varying, 4,738.00
Rent from principal's residence at \$25.00 per month, 300.00

Revenue from Tax Roll assessment for 1938, \$44,444.00
Education Tax, 2,000.00
Government Grant, varying, 4,738.00
Rent from principal's residence at \$25.00 per month, 300.00

WORLD HAPPENINGS
BRIEFLY TOLD

W. J. Bulman, 68, founder of Bulman Brothers, Limited, lithographers and printers, died in Winnipeg General Hospital.

General Christian Smuts, for decades an outstanding figure in South Africa, has announced he will withdraw from politics at the end of the next parliament.

Experimental flights over the north Atlantic will be resumed this summer probably in July. Lieut.-Col. J. Muirhead announced in the British House of Commons.

The French Air Ministry announced that 100 aeroplanes had been ordered from United States manufacturers to fill the gap left by the failure of French industry to meet the ministry's urgent orders.

Prof. A. J. Newton, Rhodes Professor of Imperial History at London University, has been awarded the Royal Empire Society's gold medal this year for his "Cambridge History of the British Empire."

Appointment of Sir Gerald Campbell, for eight years British consul-general in New York, as high commissioner for the United Kingdom in Canada has been announced officially by Sir Gerald succeeds Sir Francis Fould.

Frederick Perceval, 11th Earl of Egmont, Alberta's 24-year-old "Rancher Earl," left recently for England where he said he was to enroll his four-year-old son in one of the English public schools.

King Solomon's Red Sea on a northern reach of the Red Sea, a flourishing city of trade and industry in biblical days of nearly 3,000 years ago, has been discovered and excavated by American archeologists.

A guide and interpreter who accompanied Theodore Wreck's ill-fated expedition into the British Guiana jungle last winter, said the party had learned Paul Redfern, long-lashed United States aviator, had crashed in Venezuela and was buried beside his plane.

A Valuable Discovery

Youth Claims His Artificial Radium More Economical And Safer

Dr. E. A. Smith, who said he was associated with the late Mme. Curie in her isolation of radium, declared 16-year-old Wallace L. Minto of Jersey City "has something" in his claim of a safer, more economical artificial radium.

Dr. Smith, who has laboratories at North Bergen and Newark, N.J., witnessed a demonstration of the youth's finding at the annual meeting of the eastern Electronic Research Association in New York. Minto, a high school student, showed, with the aid of a Geiger tube, what he described as the greater strength of his product as compared with the genuine radium.

"Young Minto definitely has made great strides," Dr. Smith said. "I predict a great future for him." Minto said his artificial radium was less dangerous than the genuine article due to fewer alpha rays and more beta and gamma rays. It also is more economical, he said, because it was made from waste material near his home town, whereas genuine radium comes from the Canadian North and several other distant points.

Minto, who also claims to have found and named four new elements in the last two years—since he was 14 years old—said his artificial radium could be manufactured for about \$250 a gram in small quantities, more economically in increased output. Genuine radium sells for about \$25,000 a gram.

Too Much Open Work

Buffalo Shoe-Shiner Deplores Style Of Women's Footwear

Bert Brown, diminutive negro shoe-shiner in Buffalo city hall, has given up hope of ever getting any business from women. "Some years ago, when women really wore shoes, I used to get a few jobs," he explained, "but now there's so much open work in their shoes they have left me nothing to shine." Brown said he might pick up some business women if he carried "the polish."

Spoiled Beyond Repair

The diner endeavored to cut his steak. After struggling vainly for a time he summoned the waiter.

"Here," he growled, "take this steak back."

"I can't do that, sir," said the waiter.

"Why not?" demanded the customer.

"You've bent it," was the reply.

Mrs. M. Holt, who has died in Manchester, England, attended the same Sunday School for 78 years.

Deals In Sunken Treasure

Chicago Man Will Attempt To Salvage Valuable Mexican Cargo

Capt. John Craig, who deals in sunken treasure and plate booty on a strictly law-abiding basis, said he would descend to the ocean floor off the Virginia Capes next month in a quest which may yield a portion of the Mexican crown jewels and the rubies of the Empress Carlota.

The treasure, which included 362 tons of silver bars, was lost when the liner Merida carrying refugees from the Mexican revolution, went down 55 miles off the coast.

Craig said the bulk, object of several previous treasure hunts, was lying upside down in the mud and was particularly hazardous to divers.

"We have to overcome part of the problem," he said, "by the new equipment we will carry, doing away with trailing air lines which might be fouled."

The new diving equipment was tested this spring, when Max Nohl left a coast guard cutter off Millauke and went down to a new world record of 420 feet in Lake Michigan.

The divers breathe a mixture of helium and oxygen fed from tanks carried on their backs, eliminating the hydrogen mixture which left divers susceptible to the "bends" and to the danger of becoming stupefied if they remained down too long.

Francisco Madero had seized control from the dictator, Diaz, and for hidden exportation of wealth. The Merida almost had reached its haven when it was rammed by the Admiral Farragut, looting suddenly out of the dark. The Merida went down and with it its treasure.

Gardening

More tender vegetables are beans, tomato plants, squash, cucumbers, etc. They will not start to grow until the weather and soil really become warm. In order to get a long and steady supply of green beans, make at least three plantings at intervals of ten days, and use several varieties. To do the same thing with tomatoes one may use a few well started plants for the first crop, and hurry these along with fertilizer and possibly manure. All garden tomatoes should be staked.

These warm weather vegetables prefer rich open soil, and many members of the melon family, that is, squash, cucumber, citron, etc., take best in rich soil. Watering, though it must be made rich. Along with the vegetables mentioned, one may set out egg plant, well started peppers and the first planting of celery. The latter must have very rich soil and a few well started plants. There is still plenty of time to make second and third sowings of nearly all standard vegetables such as beets, carrots, corn, etc.

Gardeners will find the judicious use of commercial fertilizer a very valuable aid in hastening growth. For lawns and flower gardens, too, where the use of ordinary manure might be offensive, odorless chemical fertilizer is to be preferred. But this sort of thing must be used carefully. If it is allowed to reach the foliage it is apt to burn. With vegetables, the fertilizer is raked in close about the roots, and never touching the tender roots. Two or three applications during the growing season will push all vegetables along quickly.

General garden insect enemies are divided into two groups—those that eat holes in the foliage and those that suck out the juices. For the first-named, poison is usually applied, while the suckers are killed with a burning spray which penetrates. Often when both are present a combination of poison and something that burns, such as lime sulphur and arsenate, gives the best results. The damage from sucking insects is usually quite apparent, but the presence of the other kind is only shown at first by a withering or withering of the foliage. For sucking pests, chief of which are the aphids or plant lice, spray with whale oil soap, a quarter pound of soap to a gallon and a half of water; nicotine sulphate or Black Leaf 40, or any other repellent secured from a reliable seed store. When fungus attacks the plants, the foliage usually turns yellow or brown, or white spots like mildew cover the leaves. Fungus is most common in warm, murky weather. Spraying with Bordeaux Mixture or dusting with specially finely ground sulphur is advised.

Few Would Do It

Someone suggests that when we begin pinning for the "good old days" we should run the automobile into the lake, throw the radio into the garbage can, tear the telephone off the wall and throw the electric light switch out of the window. Yes, says the Lethbridge Herald, and take the airplane down out of the sky while we hitch up the ox team.

The Canvas Of Life

We are not writing in the sand. The tide does not wash it out. We are not painting our pictures on canvas and with a brush, so that we can erase the error of yesterday, or overlay it with another color to-day. We are writing our lives with a chisel on the marble, and every time we strike a blow we leave a mark that is indelible.

TAILORING FOR LARGER WOMEN

By Anne Adams

A-4 4810

Here's a summer design to make larger women want to "dive" in shirtwaist styles! Its seams are all-matching and easily put together. Its graceful curved yoke and pockets and neat loose sleeves have a way of taking years off one's age, while its slick pleat allows for a healthy step. The pointed collar may be pre-stayed in a shade different from the rest of the dress to make it stand out. The silk print—or one of the pretty new cottons in a neat summer design—will show up to special advantage in this Anne Adams triumph.

Pattern 4810 is available in women's sizes 34, 36, 38, 40, 42, 44, 46 and 48. Size 36 takes 4 yards 36 inch fabric, illustrated. Step-by-step sewing instructions included. Send twenty cents (20c) in coins (stamps cannot be accepted) for this Anne Adams pattern. Write plainly: Size, Name, Address and Style Number and send order to the Anne Adams Pattern Dept., Winnipeg Newspaper Union, 175 McDermott Ave. E., Winnipeg.

Gave Real Reason

Woman Executive Frank In Refusal To Join Trade Association

Are women too blunt to make good diplomats or business leaders? At the risk of precipitating a controversy we are inclined to answer in the affirmative, states the Financial Post. As proof here is the reply from an American feminine executive whose firm was recently invited to join a trade association:

"It is essential that we make some showing in reducing our overhead to satisfy our directors, but we do hope a little later on we will be able to consider your proposition."

We can imagine a mere man in the same position expressing all sorts of reasons for refusing financial support to any directors, but hardly as frank a one as in this actual case.

Will Be Dignified

France Preparing Fitting Reception For Britain's King And Queen

France will give King George VI. and Queen Elizabeth of Great Britain a far different reception from the welcome Chancellor Hitler received in Rome. There will be no striking modern illumination, swastika flags and Fascist symbols when the King and Queen go to Paris to pay their first state visit abroad. Instead, traditions of monarchy and democracy have been maintained in the preparations for the royal visit.

IS HE (JAPAN) GOING TO HIDE?

Separates Mixtures

Whirling Turbine Designed For Use In The Oil Industry

Scrambled eggcrack became unscrambled, turned back into whites and yolks again, by a new unmixing machine designed for the oil industry and shown at the international petroleum exposition at Tulsa.

Its first use is a short cut to extract fine motor oils from murky petroleum. The unmixer does one of those things which seemingly can't happen, forcing two liquids to flow in the same stream but one in the opposite direction to the other.

A whirling turbine, going 1,800 revolutions a minute, does it. Instead of being an ordinary turbine, this one is shaped inside like a small shell. Its interior passes winds from the centre outward in spirals. A cross section would look like a clock spring.

It takes two liquids at one time. The only necessity is that they be something that won't mix, like oil and water. Here at the exposition the unmixer takes in kerosene, dyed blue and clear water. The two liquids come out, with the water blue and the kerosene white.

It is not complicated. The water goes in at the inner end of the whirling spiral. The centrifugal force plus the water against the outer wall of the spiral passage and pushes it along toward the outer end, where it emerges.

Meanwhile the blue kerosene is forced into the spiral from the opposite end by a pressure pump, which keeps it moving in the opposite direction from the water.

Being lighter than water, it flows over the surface. It travels like any windblown substance floating on water.

But due to the forces in the turbine there is a great deal of temporary mixing. The water absorbs every bit of dye from the kerosene. The centrifugal force keeps separating the liquids so that they emerge completely separated and from opposite ends of the spiral.

Northern Mining Area

Report Describes Geology Of South Reindeer Area In Saskatchewan

The general and economic geology of the South Reindeer Lake area in northern Saskatchewan are described in a preliminary report (Paper 38-15) issued by the Geological Survey Division, Department of Mines and Resources, Ottawa, and based on field investigation by F. J. Alcock. The 5,000-square mile area adjoins the Manitoba border, and is underlain by different groups of Precambrian rocks.

The most promising part of the area, and the one which has most attracted the attention of prospectors, is that surrounding Waddy and Niostassan Lakes, near the western border. Much staking was done in this section in 1929 by Nipissing Mines, Limited, Ventures Limited, and Dominion Explorers Limited, and others, and during 1937 development work was carried out on several claims held by Churchill Minerals, Limited. The main mineral showings in the region lie near a small stock, which may be the source of the surrounding mineral deposit. It remains to be proved, however, whether any of the deposits so far developed are of commercial value.

The report (Paper 38-15) includes also information on means of access to the area, its topography, travel routes, and is accompanied by two large-scale preliminary geological maps. Copies may be obtained from the Director, Mines and Geology Branch, Department of Mines and Resources, Ottawa.

Some African cattle are humped and short-horned; others have no hump and are long-horned.

Ninety-five out of a hundred persons are right-handed.

SUNDAY SCHOOL LESSON

MAY 29

MAINTAINING PERSONAL EFFICIENCY

Golden text: Every man that striveth in the games exerciseth self-control in all things. I Corinthians 9:25.

Lesson: Daniel 1:8-16, 19, 20; I Corinthians 9:24-27.

Devotional reading: II. Peter 1:5-11.

Explanations And Comments

King Nebuchadnezzar's Plan for Raising Daniel, Daniel 1:7-17. In 605 B.C. Nebuchadnezzar, king of Babylon, besieged Jerusalem and took back as captives young men of noble Jewish families. Among them were the four young men of our text, of whom Daniel was the leader. For three years they were to receive instruction in the language and learning of the land to fit them to serve in the palace of Nebuchadnezzar. The names of these four young men were changed. In an effort, doubtless, to break them away from their past. They were to be nourished on a portion of the food and wine served to the king himself. Daniel's Firm Resolve, Daniel 1:8-16. Daniel first realized that he would not live upon the king's dainties and wine. He regarded them as something for the food was not prepared in accordance with the Jewish law (Lev. 3:17) and had been prepared, as was the usual custom, before an idol (see I Cor. 8:10) and he knew that the rich food and the wine were not good for him.

He requested Ashpenaz, the officer in whose charge he was, to permit him and his three companions to refuse the food given. Though kindly disposed toward Daniel, the officer hesitated to grant his request. "Why should the king compare your faces with those of the other youths and notice that you are in poorer condition than the others?" he asked. The king might think that I had enriched myself with what had been given to you, and my life would be forfeited," he added.

A Wise Experiment, Daniel 1:16-18. Daniel hit on a plan which he knew would not get the officer into trouble, and he proposed it. "Test us," he said, "for ten days on eatables (herbs, Revised Version), vegetables, Morfatta's and drink water for ten days, and then compare our faces with those of the other youths who eat the king's dainties, and deal with us accordingly."

The Effect of a Temperate Life, Daniel 1:19-20. Ashpenaz yielded to Daniel's request, doubtless with many misgivings. He believed that rich food was necessary for strength, and that wine was a wholesome drink. At the end of the time agreed upon, however, the experiment proved Daniel in the right; the four youths were heavier and fairer than those who ate the dainties and drank the wine, and they were put permanently in charge of the temple fare. The Reward of Temperance, Daniel 1:19, 20. At the end of the three years of training, Daniel talked with his group of picked young men, and found these four Hebrews better than all the others. The result was as we should expect; they who had controlled themselves in the matter of food and drink had the clearer brains for study and work. So they became the king's personal attendants, and he surpassed in wisdom all the magicians and enchanters in the king's realm.

Lloyd's Make New Rule

Will Not Reimburse Owners For Gems Lost In Spain

Precious stones are again in demand in Europe and prices are advancing. Paris reports important buying by people who want to guard against falls in the value of the French franc. London has received reports that Americans abroad are purchasing worth-while stones as investments, buying up to \$50,000 each for solitaires. Lloyd's has had a large demand for diamond insurance recently in spite of the organization's new rule that owners can no longer insure against war risks. This is because of the case of a diamond ring owned by a Spanish or Shanghai for Lloyd's will not reimburse for stones lost during the fighting there.

British Tolerance

A Noted Scot Pays A Tribute To England

A noted Scot paid a tribute to England after he received the freedom of Edinburgh city. Lord Macmillan recalled one of the occasions on which he sat as a member of "what is incontestably the greatest court in the world—the judicial committee of the Privy Council." In that court on that day there was not a single member of the English Bar. It was presided over by Lord Dundee and Lord Thankerton was Lord Lord Macmillan's colleague. "Three Scottish advocates to the Empire in that tolerant country of England," Lord Macmillan commented.

When they want rain to fall, a traveller tells us, the members of certain African tribes indulge in a ceremonial dance. We still feel that by far the most effective method is to give the car a thorough cleaning.

Before leaving a house he had ransacked, a Toronto burglar is reported to have feasted on a jar of homemade preserves. Those chaps have tools which will open anything!

ARTICLE No. 37

Carcinogenic Agents

In 1915, two Japanese workers, Yamaguchi and Itchikawa, succeeded in producing cancer in the skin of mice by painting the skin with tar. In 1930 British investigators announced that they had produced experimental cancer by means of pure hydrocarbon cancer by means of pure hydrocarbons. Hydrocarbons are compounds of carbon and hydrogen and the particular one depends on the relative proportions of contained carbon and hydrogen. Benzene is a hydrocarbon containing equal parts of carbon and hydrogen. An example of a fatty hydrocarbon is paraffin. The investigations carried on in the effort to produce carcinogenic agents read like a romance. Much of this work was done at the Cancer Hospital in Pulphar Road, London, by Kennaway, Cook, Hieger, Hewett and others.

The first cancer-producing agent was called 1:2:3:6—dibenzanthracene—was named hydrocarbon, which when injected into the body, will cause cancer. Re-arrangement of the molecules in this formidably named substance, gave other carcinogenic agents.

More recently these investigators have produced from coal-tar several hydrocarbons active in producing cancer in the skin of mice. It has been found that certain lubricating oils, notably those found in the north of England and on the Continent of Europe, will cause cancer of the skin. Moreover it has been found feasible to remove the cancer-producing agent from these oils and thus to make them safe.

The discoveries just referred to have changed the entire attitude to the matter of chronic irritation in regard to cancer. It is now believed that the irritant simply prepares the way for the action of the contained special cancer-exciting substance.

But by far, research workers are un-derstanding the causes of malignant disease. The best part of this work is, that the scientific research worker does not try to exploit his discovery for his own benefit. He gives it freely for the benefit of his fellow-men.

Purchasers Get Break

British Firms Selling On Credit Cannot Repossess Without Court Order

Five million British families buying furniture, automobiles, radios and what-not on the "never never" plan had reason to rejoice when the House of Commons passed the "hire purchase" (installment payment) bill.

Ellen C. Wilkinson, Laborite who sponsored the bill, dashed from Commons to a cocktail party to celebrate her victory.

Installment salesmen were not so jubilant. The bill provides that they may recover goods from defaulters only under court order and that the seller must specify both cash and installment prices for goods. The bill was intended to curb firms which seize goods even when they are only the final payment is overdue.

From Small Beginning

Temple University Was Really Started With One Student

A young man once came to Dr. Russell H. Conwen ("Acres of Diamonds") and asked him if he could get an education in spite of the fact that he had to work to support himself and a dependent.

The busy but sympathetic clergyman suggested that he come three evenings a week to the Bible school.

After his first Latin lesson, the youth asked whether he could bring a friend along. Dr. Conwell told him it would be all right. The next week six young men came to the study, and the next forty.

That was the beginning of Temple University.

Eskimos like butter so much they can eat it by the pound.

NOTES AND COMMENTS

A SOCIAL CREDIT member of the legislature well-known in this district, is also a minister of the gospel. He draws a salary or sessional indemnity, with special allowance, from the province, he receives an additional stipend as a minister to his church, and not content with that, he goes out among the people selling bonds for a financial concern, the attractive feature of which he takes pains to point out is interest paid on these bonds. In the legislature apparently he upholds Premier Aberhart who says there should not be any interest on borrowed money, and who repudiated contractual obligations. Here is a fine demonstration of a man trying to serve two masters, or straddling the fence. Other instances might be related of government appointments being given to Social Credit supporters, for which they are not in the least qualified to sit in judgment on their fellow men. It is to laugh to have Mr. Aberhart telling the people of Saskatchewan that Social Credit is Christianity scientifically applied. Never was there greater hypocrisy foisted on the people.

PROTESTS against 1938 school taxes indicate that ratepayers will not consent to any increased expenditure for educational purposes, no matter what the department of education may say. It has got to the point where school taxes are so high that they are becoming burden some on working people, and frills in our schools will have to be curtailed and expenses kept down to where people can pay. As always, the good taxpayer has to pay for the defaulters, and with last year's statement showing nearly \$12,000 tax arrears, it is one reason why taxes have increased. The new high school of course added to operating costs, but there is some criticism over the cost of what ratepayers consider is too many on the staff. Too much has been taken for granted by taxpayers with the result that expenses have been added to every year. Now comes the cry for a halt, with assessment notices showing that the increase to almost every ratepayer who owns a house or a business runs from 80 to 200 per cent. over the amount he paid last year.

THERE WILL have to be some paring in operating costs, for no body can govern without the consent of the governed, and if ratepayers rebel against paying increased taxes, then the expenses must be made to conform with their ability to pay. This year a statement issued by the trustees shows that approximately \$5,000 is needed over last year's total expenses, they budgeting for a total expenditure of nearly \$47,000 for school purposes, an increase of \$5,000 over 1937. That's a lot of money for a small community, the majority of whom are wage-earners who do not work full time by any means.

THE PASS clamors for a hard-surfaced road. Coleman a hard-surfaced portion of the provincial highway in the town limits, but received no financial aid from the provincial government. It is safe to state that this piece of road is used to a greater extent by through traffic than local, yet no aid is apparently forthcoming to help pay the cost.

COLEMAN baseballers complain they cannot play home games because there are too

many rocks and stones on the field. Why not organize a work day among the public spirited men and boys of the town and clear the surface and level it? Let's do something off our own bat without asking the council to help. Surely that is the least that can be done if we wish to encourage and promote baseball. In fact the only way to stage any kind of local affairs, such as a July 1 or Labor Day celebration, is for volunteers to get busy. It can be done, but there must be leaders. That's the rub. The Elks would get support if they would organize something along this line. Every business can and should contribute something. Fernie, working at a great disadvantage compared with Coleman, raised nearly \$700 for bandmen's uniforms. Where there's a will there's a way.

Ottawa May Disallow Legislation — Senator Buchanan Says Confidence Destroyed

Ottawa, May 25 Hope that the King government would disallow recent repudiatory legislation of Alberta was seen here today in Senator W. A. Buchanan's support of Senator Arthur Meighen's criticism of the Aberhart laws. Mr. Buchanan of Lethbridge, is one of Alberta's leading Liberals.

National unity was in danger if such provincial statutes were permitted to go unchecked, warned Mr. Meighen, Conservative leader of the Senate. Mr. Buchanan followed Mr. Meighen's lead and rapped the confisatory effect of the Alberta legislation. Revival of the construction industry would have provided employment for Alberta "if confidence in the province had not been destroyed," he said.

"With provincial legislation, we created a situation that means a person in Alberta with money won't invest in his own province — and the person outside Alberta can't," Senator Buchanan asserted. "Houses are needed but they can't be built because money can't be borrowed."

Discussing the unemployment problem, Senator Meighen declared no one would lend money in Alberta "in the presence of a threat which overshadows them. What that cloud is we all know," he added. "Repudiation is rampant, and it is centred in Edmonton."

Mr. Meighen challenged the Federal government "to maintain the sheet anchor of Dominion authority." Adherence to the principle that a law should not be disallowed because it was constitutional was wrong and dangerous, he asserted.

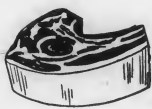

"In my judgment," Senator Meighen declared, "this country got off the track on the whole principle of disallowance some years ago. It stayed off the track and is off the track today, and it has got to get back or we are through. We are right on the edge of a crisis and that crisis means disintegration."

"If one part of the country can say: 'We are going to live off another part; we are going to cast aside all obligations to the rest of the world because it is popular, because a large number of people are going to live by it,' do you think civilization can survive on that basis?" he demanded.

Senator John T. Haig of Winnipeg stated: "You are threatened today with the theory of repudiation of debt liability and unless you come to the assistance of those who are fighting that sort of thing, you will have it all over Canada," he said.

How Do "Little Savings" Finance Mortgage Loans?

Answer.—Every mortgage loan made by a Life Insurance company is made up of the savings of several policyholders.

Question.—What do these savings represent?

Answer.—They represent the money which thrifty men and women have invested in Life Insurance for the protection of themselves and their dependants.

Q.—What is the average policyholder's share in Life Insurance assets?

A.—Approximately \$571.

Q.—Then it would require most of the accumulated savings of six policyholders to make a mortgage loan of \$3,000?

A.—That is a fact.

Q.—How much Life Insurance money is invested in mortgages?

A.—More than \$382,000,000, in first mortgages on farm, town and city properties in Canada.

Q.—In whose interests are these investments made?

A.—In the interests of more than 3,500,000 Canadian policyholders, most of whom are in modest financial circumstances.

This is the seventh of a series of messages sponsored by Life Insurance Companies operating in Canada. The eighth, to appear in two weeks' time, will deal with Life Insurance as Canada's greatest co-operative business.

Steam Coal Mines Conciliation Board Is Now at Blairmore

Opening on Wednesday morning, with Mr. Justice McGillivray of Alberta Supreme Court presiding, the inquiry commission heard three witnesses during the day — Mayor Williams, Frank Leary and Evan Morgan, speaking for the miners. Williams reviewed the history of the industry from the miners viewpoint from 1917 till the present time.

The commission includes R. M. Young, representing the steam coal operators, and Robert Livett, president of United Mine Workers of America, District 18. The union is asking for a 20 per cent. increase in wages. The operators urge a reduction of 10 per cent.

"If the miner does not get a living wage, the operator cannot carry on his operations," remarked the chairman. "On the other hand, if the operator cannot pay high enough for a living wage and still function with a reasonable profit, he cannot carry on. If both sides are true we have an impasse, and all this board can do is to report that miners cannot be paid enough to live on."

Justice McGillivray stated: "It is more important for this board to decide what is a fair wage under existing circumstances than to decide which side is the better bully—the better at collective bargaining."

Fry Awarded Guest Editorial Prize

George H. Fry of Hillcrest was awarded a special prize in the guest editorial contest conducted by the Calgary Herald. It was indeed unique and interesting and he was honored by a front-page photograph in Monday's Herald, with what he described his greatest accomplishment—handsome twin girls. His editorial published in Wednesday's Herald certainly is something different from the usual run of editorial writing. Who says there isn't talent in the Crow's Nest Pass?

Youngsters Need Thrashing

Several boys in the public school were taken from classes this morning by the police to explain why they had in their possession chocolate bars stolen from a box car on the C.P.R. tracks. The car seals were broken on May 24. They also stole tally checks off the mine cars at International. These young robbers will be tried in juvenile court. Their ages were from 10 to 13 years.

George Burles Highly Praised

In the baritone solo class at the musical festival in Edmonton, the adjudicator, Sir Hugh Robertson, of Glasgow, remarked as follows on the award of first place to George Burles of Blairmore: "His singing constituted a triumph of mind over matter—it was very intelligent."

G. F. Powell, Social Credit "expert," recently released from a six months sentence for criminal libel, has returned to England after less than a year in Alberta. He was paid by Premier Aberhart's government nearly \$9,000.00— for what? How easy some people are!

ALBERTA NEWSPAPERS ACCORDED TRIBUTE ON FIGHT AGAINST DICTATORSHIP

Dear Mr. Editor:

At the meeting of the Council of the Edmonton Chamber of Commerce, May 4th, the following resolution was passed:

"RESOLVED that letters expressing the appreciation of the members of this council, speaking on behalf of the entire membership of the Chamber of Commerce, be sent to the Edmonton Journal, the other daily newspapers of Alberta, and each of the weekly newspapers of Alberta, for the unprecedented recognition and honor bestowed on them by the Pulitzer Advisory Committee and the Trustees of Columbia University for their leadership in the defence of the freedom of the press in the province of Alberta and for their courageous and effective fight against the Alberta Press Act."

THAT Mr. John M. Inrie, managing Director of the Edmonton Journal, be congratulated on the very admirable and happy speech made in New York in accepting the awards on behalf of the newspapers of Alberta.

AND, FURTHER, that a letter of appreciation be sent to Dean Ackerman, of the Columbia School of Journalism, congratulating him and Columbia University on the spirit of good-will that characterizes the press of both Canada and the United States.

Yours truly,
JOHN BLUE,
Manager-Secretary.

Local News

Mr. and Mrs. J. L. Lonsbury, Mr. and Mrs. Bert Barrett and Mr. Ray Stuber were Calgary visitors during the week end. Messrs. Lonsbury, Barrett and Stuber transacted business in connection with the Legion Carnival to be held here on June 11th and 13th.

Mr. and Mrs. H. Nurcombe motored to Calgary for the week end, remaining over for Victoria Day. They were accompanied by Mrs. Steeves and young son. Mrs. Steeves' brother, Graham Rowland, was home from Toronto, prior to taking over the position of sales supervisor in Montreal for Remington-Rand Limited.

A party of Coleman people went to Rock Lake on Tuesday, including Mrs. J. Devine, Miss A. Yuill, Mr. W. G. Gifford, and Mr. Chrysler, of Hillcrest. Several from Coleman also visited the lake on Sunday. The Girl Guides will hold their annual camp there this year, having a commodious hut which was recently erected.

That was the national flag of Scotland flying over the Grand Union hotel on May 24th, being the Scottish day. However, the flag belonged to a people of European birth had their curiosity aroused, being accustomed to seeing the Union Jack on national holidays. However, Bill Bell believed in "Scotland Forever," therefore proudly flies the flag of Auld Scotia, bringing to mind the refrain: "Scots, wha hae, w' Wallace bled."

Mrs. C. F. Dunlop left on Sunday's train for Merritt, B.C., via Calgary and Spence's Bridge, in response to the illness of her seven-year-old granddaughter, Beverly, daughter of Dr. and Mrs. Austin Gillis. Letter in the day a message was received by Miss Winnifred Dunlop stating that Beverly had passed on. The funeral was held on Wednesday at 9 a.m. Mrs. Gillis is the daughter of Mrs. Dunlop, well known to Coleman friends as their Dunlop. Sympathy is extended to the family in their bereavement.

NAZARENE MISSION

Servants: Sunday, 11 a.m.; Sunday school at 6:30 p.m., the special young people's musical service. 7:30 p.m. evangelistic service with male quartet of the service on Saturday night.

Coming special events: Friday evening at 7:30, June 3rd, will be the special Children's Day program instead of Sunday, June 5th. Be sure to bring in your Children's Day offering envelopes, which go to the fore-mentioned service.

Sunday, June 6th, begins a special series of tent meetings with Rev. Edward Lawlor and Prof. W. W. Tins as the workers.

SPECIAL WEEK-END SERVICES AT NAZARENE MISSION

The Nazarene Mission feels very fortunate in having a special week-end meeting with the Northern Bible College Male Quartette, of Red Deer. The personnel of this quartette is as follows: William Clark, of Scotland, tenor; Wilfred Jensen, of Raven, second tenor; Lawrence Holman, baritone; Rev. Charles E. Thomson, president of Northern Bible College, bass. This quartette will have charge of the service on Saturday night, and all day on Sunday. The preachers will be William Clark and Rev. C. E. Thomson. They will render several duet numbers both vocal and instrumental, as well as quartette numbers. You will enjoy the singing of these fine young men. Bring your friends. The following young folk from Lethbridge are expected to be at the mission on Sunday, and will assist in the services with vocal and instrumental numbers: Muri and Keith Hunt, Reg. Jarvis, George Hart Venn, and Albert Postwank and Mr. W. B. King.

Not Ripe

"These eggs are very small," complained the young housewife to her grocer.

"Straight from the farm this morning, madam," declared the grocer.

"That's the trouble with these farmers," she perished. "They're so anxious to get their eggs sold they take them off the nest too soon."

—Titt-Bits.

Humorist: "Who doesn't like the smell of nice fresh paint?" asks a housewife. Anyone who has just sat on a newly-decorated park seat.

SPRING BRINGS OUT A NEW CAR

Still new to the Canadian motorist is the low-priced Hudson One-Twelve, which by its recent introduction made spectacular automotive news. Its early popularity has prompted Hudson to broaden the line by a series of deluxe models in seven body types, announced today. The new deluxe sedan is shown. Smart innovations in styling, fittings and appointments along with new harmonizing interior and exterior color schemes are among its features.

EVERY Ad. in The Journal tells a worth-while message in convincing style. That's why those who know from experience the value of newspaper advertising use this paper. "Your classified ads. are wonderful," states a person who advertised for a lost article. After ordering the ad. and arriving home, I found the lost article right in my own pants pocket.

Brusher in the New Yorker: Mr. Chamberlain believes that his policy insures the peace of Europe. We shall believe this when he makes Rome and Berlin bury their axes.

WHO OWNS CANADA'S BANKS?

Who are the owners and what do they do?

★ ★

JIM BROWN, carpenter—your next-door neighbour—may be one of the supposed "Big Shots" who own the banks in Canada. He may own a couple of shares, or maybe only one.

Women, executors or trustees of estates, and retired people, comprise about 63 per cent. of the shareholders in one of Canada's banks, taken as an example.

Analysis of this particular bank, which may be regarded as typical, shows that women own nearly half of its shares. Farmers, merchants and professional men are the most numerous of the classes listed.

There are 260 occupations represented among the shareholders. They include:

Accountants, actors, barbers, bankers, bee-keepers, boat-builders, bricklayers, carpenters, cheesemakers, clergymen, dairymen, dentists, doctors, drovers, druggists, farmers, fishermen, forest rangers, funeral directors, grocers, insurance agents, jailers, journalists, linotypists, lobster buyers, miners, oil operators, plumbers, policemen, railway employees, ranchers, sailors, scullers, sheriffs, stenographers, stove-dressers, timber cruisers, tobacco farmers, trappers, and others.

These are among the folks who own the banks and so must be a part of that bogey with which some people seek to scare you—that fabled "international bankers' ring". They are mostly Canadians—your fellow-citizens—decent people like yourselves. 50,185 people hold the 1,445,000 chartered bank shares issued. Seventy out of every hundred shares are owned in Canada.

The average share-holding is 28.8 shares—but all through the lists of bank shareholders you will find hundreds who own from one to five shares.

There is no concentration of ownership and power in the hands of any small group. These shareholders annually elect directors. There are 172 directors of Canada's chartered banks. Their addresses dot the map of Canada from coast to coast. They are men of proven business ability; their own success has proved their judgment good; that judgment is always alert in safeguarding your money.

Their business experience reinforces the skill and training of the salaried bank executives in conserving the interests of the

depositors, note-holders and shareholders.

Loans to bank directors, firms in which they are partners and loans for which they are guarantors, as of February 28th, 1938, did not exceed 1/100th part of the total loans made by the chartered banks. That is about the usual proportion. Monthly returns have to be made to the Government showing these borrowings.

No director may vote, or even be present at a meeting of the board when loans in which he has any interest are under discussion.

The law prevents a bank from doing certain things. A bank is prohibited from lending on mortgages, for loans must be of short term and quickly realizable.

A bank is forbidden to engage in trade. It must not buy, or lend against its own shares or the shares of any other chartered bank. No bank, bank director, or bank employee is allowed to hold shares in the Bank of Canada.

A bank must not let its name appear on certain prospectuses, nor may any of its staff represent insurance companies.

There are heavy penalties laid down for violation of any of these and other provisions of The Bank Act.

Your bank provides machinery for carrying out adequately the most widely varying, day-to-day transactions—financing farmer or factory, merchant or miner; simplifying business, facilitating the exchange of goods and services.

Canada's chartered banks are owned by your fellow-citizens, directed by men known as competent leaders of business and managed by able men risen from the ranks whose whole business life and experience has been in the bank.

They are at your service.

THE CHARTERED BANKS OF CANADA

Your local branch bank manager will be glad to talk banking with you. He will be glad to answer your questions from the standpoint of his own experience. The next article in this series will appear in this newspaper. Watch for it.

Local News

J. M. Chalmers has been confined to his home for the past week through sickness.

Miss Barbara Lochrie was operated upon for appendicitis on Wednesday morning.

Friends of Mrs. Alex Fyfe will be glad to know she is improving after her recent illness.

The high school dance held in the community hall on Friday evening was attended by a capacity crowd.

Mrs. Russell Vincent entertained a number of Rebekahs at her home on Wednesday evening, May 18, in honor of Mrs. Fox, president of Rebekah assembly.

Mr. and Mrs. A. J. Brown of Coleman announce the engagement of their eldest daughter, Eira Gwenllian to John Roach Cousins, second son of Mr. and Mrs. Wm. Cousins also of Coleman, the wedding to take place early in July.

The Ladies Auxiliary of the Canadian Legion sponsored a whist drive in the I.O.O.F. hall on Friday evening. Prize winners were Mrs. S. Farano, Mrs. D. Nevay, D. McLellan and A. Destobel. Door prizes were won by Mrs. H. Hulbert and Mrs. Bertie. Mr. Harold Nelson held the lucky ticket on the quilt.

Three accidents, all happening in various parts of the mine, occurred at International on Monday. The most seriously injured was Dave Holly who suffered a fractured left arm and bruised chest and back. He is now resting comfortably in hospital. Starting in the mining industry at 13 years of age, this is the first injury sustained by Mr. Holly. Lewis Jones suffered body bruises and received first aid treatment before being allowed home. Alois Krywolt suffered a crushed foot and received medical treatment at the hospital before being allowed home.

Tennis Club Opens Season

Coleman Tennis Club held a tournament among the members on Tuesday. All events being mixed doubles. This was the official opening of the club for the season, 24 people taking part. The ladies provided refreshments, adding to the enjoyment of a really fine day. The tournament will be completed at a later date, time not permitting its completion on Tuesday.

TURNER VALLEY FIELDS LAVISHLY ADD TO NATIONAL WEALTH

The Turner Valley oil fields may play the role of Santa Claus for the nation to the tune of \$10,000,000 for the year 1938.

Production in the field last year had a value of approximately \$5,000,000, a welcome addition to the national wealth. This was not merely the result of drilling a number of oil wells. It was the result of patient and costly search for oil in the west, and the sequel to an efficient application of co-operation on the part of the pipe lines, railways, and refiners, as the oil business has been able to record.

By this co-operation the producers, the transport agencies, and the refiners, made it possible for the prairie consumer to get his supplies of light petroleum products at substantially reduced prices. Some \$5,500,000 will be saved to consumers in Alberta, Saskatchewan, and Manitoba, this year because of lower prevailing prices. This computation assumes that consumption this year will be the same as in 1937. If it is larger, the benefit will be proportionately greater.

Even though it only equals that of 1937, and that production in the Turner Valley is only as large as last year, there will be a net benefit of more than \$10,000,000 to the country.

MILD, COOL AND SLOW-BURNING - THAT'S DIXIE!

DIXIE
PLUG SMOKING TOBACCO

The Annual Slaughter

With the summer months coming on when all mankind will be ached, an appropriate and seasonable reminder of the terrible and mounting death toll attributable to the automobile in the hands of the careless, the reckless or outright criminal driver, was recently the subject of a press interview by Deputy Commissioner D. Ryan of the Royal Canadian Mounted Police.

As head of the force which polices the Western Canadian highways, there is no better authority on the subject of road accidents and control measures than Colonel Ryan, and when he speaks out and accompanies his warnings with recommendations for measures of a preventive character, his comments are worthy of attention and consideration.

Armed with the latest figures of casualties on the North American continent, Col. Ryan points out that last year the automobile took toll of 40,683 lives in the United States and Canada. In other words, enough lives were snuffed out from this single cause to populate a good sized town or small city—the result of carelessness on the part of drivers of trucks and automobiles.

An Appalling Loss

Had all these people been killed at one time in a single disaster both countries would have been staggered and appalled at the magnitude of the loss. The catastrophe would have been regarded in either country as a national disaster. Calls would have been flashed all over the country for aid, people's hearts would have been wrung with pity and their purse strings would have been spontaneously loosened. Troops to preserve order, Red Cross ambulances and supplies would have been rushed into the stricken area and headlines in the newspapers would have screamed the anguish of sorrow stricken relatives and survivors.

But because these accidents and the toll they exact are scattered over an area of thousands of square miles and are spread throughout the year in innumerable crashes, little heed is taken, and even when annual reports appear revealing the year's total losses, the figures are passed over with a casual glance and a shrug of the shoulders. One or two speeches are made in parliament and legislators, about the monstrosity of the thing and the subject is promptly dropped for another year.

Nothing much is done about it, except perhaps to tighten up the law a little here and there, and the slaughter goes on, not only unabated, but with increasing momentum. Automobile insurance rates are jacked up another notch, and the subject is buried along with the victims.

Carelessness To Blame

Of the total death toll of 40,683 in the two countries, the United States can take credit for 39,243 compared with 1,440 in this country, an average of 327 deaths per million of population in the U.S.A. compared with an average of 131 per million in Canada.

At first glance it might be thought that this is a creditable showing for this country, but when the relative density of traffic in the two countries is taken into consideration, it is very doubtful whether, proportionately, the Canadian death toll is any less than that of the United States. In fact, it may be worse.

With this unenviable record as a basis for comment, it is more than interesting to note Col. Ryan's proposals for cutting down the automobile death list. He points out that "practically all accidents can be avoided," and that "it is the careless driver who is mostly to blame for trouble."

On this premise Col. Ryan properly rates the drunken driver as public enemy No. 1 on the highway, and very properly suggests that the drunken driver when convicted should be barred from ever driving again, pointing out that "an intoxicated person operating a car is as much of a public menace as if he were operating a machine gun on the highway."

The other types of reckless and dangerous drivers, Col. Ryan, again very properly suggests, "can be and should be educated in the matter of safe driving," with the addendum that "any person who undertakes such education and succeeds, is performing a real service to the public."

The drivers who are capable of reformation through education are categorized by Col. Ryan, as follows: The driver who speeds when his vision is obscured by fog or other obstruction; the driver who tries to beat the train to the crossing; the town or city driver who considers his appointment or game of golf more important than human life, and the night driver who does not dim his lights on meeting another car.

Caution Unheeded

A volume might well be written on each of the foregoing types of road hog, and the misery and suffering they have caused in the past and will continue to cause in the future, unless the warnings of printed and spoken word are heeded better than they have been in recent years.

It is doubtful whether the passage of more stringent legislation will have much effect on the mounting death toll due to careless and reckless driving. As Col. Ryan says, best results can be expected from education and every citizen of the country, whether a motorist or not should take a hand in a campaign to teach drivers that they must no longer drive to the peril of life and limb.

An aroused public opinion is the best insurance policy for safety on the highways of the country.

Becoming More Fluent

At the opening of the Empire Exhibition in Glasgow, King George VI spoke ten minutes, making one of the clearest and most confident speeches since his elevation. His speech impromptu was noticeable only twice—when he referred to the exhibition "palaces and pavilions," and when he said "this new enterprise is the safest insurance against a return of the depression."

Entitled To Refund

Smith called on his parson. "Is it right for any person to profit by the mistake of other people?" he asked. "Most certainly not," replied the parson. Smith brightened as he replied, "Very well, then, perhaps you'd like to return that '7s. 6d. I paid you for marrying me.'"

Saint Peter (to Scotsman at the portals of Paradise): "Ye cannot enter here; I'm not going to make porridge for one."

The skeleton of the toadster is outside its body, while its muscles are inside the skeleton.

New Acid Mixture

Water Mixed With Acid Used To Increase Production In Oil Wells. Water in which a duck would sink was exhibited at the International Petroleum Exposition at Tulsa. This water is used in oil wells and is chemically treated to make it extra "wet".

The liquid becomes so moist, it was explained, that it would penetrate a duck's feathers all the way to the skin and render the bird too heavy to float.

The water is mixed with acid and pumped into oil wells to increase production. Because of its extreme wetness the water penetrates deeply into the stony formations which trap oil within their pores.

The acid mixed with the water opens the rocky pores and makes new drainage channels to untap oil reservoirs. This "moist moisture" is one of the developments in acidizing oil wells.

Acid is used after oil ceases its natural flow. To date the process has added about 450 per cent. to the production of limestone wells.

TRAVEL MADE HIM CONSTIPATED

Salesman Says Kruschen Keeps Him "On His Toes"

"I am a commercial traveller," writes a correspondent, "and due to endless travelling by train and automobile I find that I become constipated if I do not keep myself internally clean. Kruschen Salts is the only thing that will do this effectively and not interfere with my work. I take a large dose of Kruschen every Saturday night and on Sunday, when I have no work to do, the Salts act on me. On Wednesday I take a small dose on rising. It is necessary that I be 'on my toes' all through the day, and this is the only way that it possibly can be done."

Kruschen Salts is an excellent recipe for maintaining a condition of internal cleanliness. The numerous salts in Kruschen stimulate your internal organs to smooth, regular action. Your inside is thus kept clear of the impurities which, when allowed to accumulate, lower the whole tone of the system.

The Unshakable Force

Religion In World Affairs Would Save Problems Of Humanity

In the middle of Mussolini's kingdom sits the man they cannot touch. Unfrightened, unrepented, he dares to rebuke Hitler for his religious perfections. He rebukes Mussolini, too, when Mussolini offends him. He is the Pope, Pius XI, eighty years old, leader of 324 million Catholics all over the world. Frail and bed-ridden, he works 22 hours in the day, lives on milk and coffee, only sleeps from two to four o'clock each morning. The dictators may boast of their power. But they can do nothing with the Pope. He represents the force of religion. If we could once restore that force into world affairs we would solve the problems of humanity.—London Sunday Express.

Honored The Losers

Banquet Held For Defeated Majority Candidates In Lakeside Cities

An interesting and as far as we can remember an unprecedented function was held a few weeks ago when the defeated majority candidates in Port Arthur and Port William were tendered a complimentary banquet by the Independent Order of Foresters. That seems an excellent idea, for many of the public office show good public spirit and often devote considerable time and money to the contest. Too often men who are unsuccessful in such elections simply drop from sight. After all in our system, there must be losers as well as winners and the good losers should not be forgotten.—Niagara Falls Review.

Safety Belts For Cars

Are Made Similar To Those Worn By Airplane Passengers

A safety belt, similar to the kind now worn by airplane passengers, designed for use in automobiles, has just been announced.

Made of heavy canvas, the manufacturer says the belt will prevent people being thrown from their seats in collision, providing speeds are not in excess of 55 to 60 miles per hour. Adaptable to all passenger cars, installation can be made without damaging the interior.—National Safety Magazine.

The sitatunga, an African antelope, has hoofs that spread far apart with every step, which makes it possible for the animal to walk on marshy soil without sinking.

True flight has been solved by only four species of the earth's creatures; insects, pterodactyls, birds, and bats.

Writers Are Honored

Royal Society Of Canada Awards Medals For Merit

Awards of medals to Col. William Wood of Quebec City, author of many volumes of Canadian history, Mazo de la Roche, Canadian author, and Dr. W. Lash Miller, professor of physical chemistry of the University of Toronto, were announced by the Royal Society of Canada.

Col. Wood will receive the J. B. Tyrrell medal, awarded annually for outstanding work in connection with the history of Canada. Mazo de la Roche is to receive the Lorne Pierce medal for accomplishing in imaginative or critical literature some achievement of significance and conspicuous merit. The Sir Joseph Flavelle medal, awarded annually to a fellow of the Royal Society for original work in science or literature of a special or conspicuous merit goes to Dr. Miller.

Would Improve Grammar

Need For More Proper Use Of The English Language

Establishment of "a central authoritative body on the proper use of the English language" is suggested by the London Ont. board of education in a resolution to be presented to the annual convention of the Urban Trustee Association of Ontario.

The board's resolution said it was desirable use of English in Canada be improved from the standpoint of "grammar, enunciation and pronunciation," and asked the Canadian Broadcasting Corporation to establish an organization "upon which shall be placed the responsibility of deciding what is correct for Canadians in the matter of pronunciation of English words."

A Queer Old Custom

Peters Passing Through English Town

Mary a king's horse has lost a shoe at Oakham, England, according to John L. Dowrick, manager of the American Express Travel Service, who reports that because of an old custom there, there has been the right to demand a horseshoe from every peer who passes through the town. If any one refuses, a shoe can be taken from the horse. Queen Elizabeth gave one of the largest shoes in the castle, George IV, presented a seven-foot specimen of bronze and the present Duke of Windsor left one, but King George V. is not represented because he never passed through the town on horseback.

TESTED RECIPES

By Katharine Baker

JELLY COMES TO THE RESCUE

Quick Dishes For Busy Housewives

Perhaps you have always thought that quick-setting jelly powders could be used only to make dessert dishes or, in a pinch, a molded salad. We are out to dispel that idea and here are some recipes which prove that quick-setting jelly has an infinite variety of uses which will clear it to the hearts of busy housewives. These packages of jelly in bright colors and various flavors can be used to your rescue on numerous occasions when you feel you just can't make a meal out of what is left over and yet can't throw the scraps away.

Here are two delicious recipes that can form the main course of any party or family meal, and yet they are so cheaply and easily prepared that it will astonish you.

PIQUANT TONGUE MOLD

- 1 package quick-setting mold jelly powder
- 1 pint warm water
- 2½ tablespoons vinegar
- 1 teaspoon salt
- 1 teaspoon scraped onion, finely chopped
- ½ cup dill pickles, finely chopped
- ½ cup mayonnaise
- Dissolve jelly powder in warm water. Add vinegar and salt. Chill until cold and syrupy. Place in bowl of cracked ice or ice water and whip with rotary egg beater until fluffy and thick like whipped cream. Fold in onion, tongue, pickles, and mayonnaise. Turn into loaf pan. Chill until firm. Unmold. Garnish with crisp lettuce and radishes.

If you have chicken on Sunday as a rule, here is the perfect dish for Monday.

MOLDING CHICKEN LOAF

- 1 package quick-setting lemon jelly powder
- 2 cups warm chicken stock, free from fat
- 1 cup chicken, cut in small pieces
- 1 cup celery, finely chopped
- 1 cup green pepper, finely chopped
- 1 teaspoon scraped onion
- 2 tablespoons pimiento, finely chopped
- 2 tablespoons vinegar
- 1 teaspoon salt
- 1 cup stuffed olives, chopped
- Dash of Cayenne

Dissolve jelly in warm stock. Chill. Combine remaining ingredients. When jelly is slightly thickened, fold in chicken mixture. Turn into loaf pan. Chill until firm. Unmold. Serve in slices. Or mold in ring mold and serve as salad garnished with mayonnaise. Serves 8.

"AW DAD...I'M OLD ENOUGH TO HAVE MY OWN ROOM"

Sanctuary from the harts and puzzles of growing up. Security for prized possessions. Every child needs this little private world in a room of his own.

You can easily make such a room with Gyproc Wall Board. It provides beautiful pre-cast plaster walls that are really permanent. Gyproc is easily erected. It saves time and lumber. Assets To Any Town

Modest Man And Go-Ahead Type Are Equally Valuable

It is often said that it takes all kinds of people to make a world. And it's quite true. There's the big town in a little puddle, or the big man in a small town or city who is always in the limelight, in the headlines of the newspaper and quite a lively figure about town. He has his good points and keeps the community pepped up. While some of his philanthropic acts may be a trifle exaggerated, he has, no doubt, contributed considerably to the welfare of the community.

But don't overlook the silent type, as the girls say. He's probably a man of moderate means who pays his bills, including taxes, promptly, minds his own business, is law-abiding, contributes to charity as much as he can and while not a great booster of his city or town, he isn't a knocker. He, too, has his place in this world and is a valuable asset to the village, town or city in which he lives.

And there's always a chance that the modest man may come out of his shell and be a "big shot" with the rest of them.—St. Thomas Times-Journal.

Payment For Parentage

Believes Married Man With Children Should Have Larger Income

A famed California psychologist recommended to parents and teachers of the United States payment for parentage—at so much a child.

"Society," said Dr. Paul Popenoe, of Los Angeles, director of the Institute of Family Relations, "must be prepared to equalize the burden of parenthood by a proportional family wage which will increase the salary of the white-collar worker—whether man or woman—with the birth of each child."

"The present erroneous concept of equal pay for equal work—which means that a high school principal with a wife and four children is expected to live on the same salary that would be paid a bachelor, has proved to be too destructive of family life to be continued," he told 1,200 delegates from every state to the National Congress of Parents and Teachers.

"It puts a high premium on sterility and punishes people for having children."

Furs Are Scarce

Forty Per Cent. Reduction In Trappers' Returns This Year

Scarcity of rabbits in Canada's northland during the past winter will cause a drop in Canada's fur harvest this year of approximately 40 per cent., William Levine, president of Edmonton Fur Auction Sales Company, stated.

Rabbits, he said, were the sole food of many of the fur bearing animals and this year were at the bottom of their prevalence cycle. He said the fur harvest was usually worth about \$300,000 a year to northern and western Canada fur men.

Water from the Atlas mountains sinks through the sands of the Sahara desert to an impermeable strata of clay and vast reservoirs underground, and breaks through the surface as springs.

Saint Bernards Sent To Tibet

Have Been Inactive At Swiss Monastery Since Accident Last Year

Banished from their rescue work of generations in the Alpine snows, the pack of Saint Bernard dogs from the famous Swiss monastery of that name sailed from Marseilles to begin life anew in the Himalayas of Tibet. They have been bred and used at the pass for centuries.

After a tragic accident last year when a little girl was killed by the dogs near the Hospice of Grand Saint Bernard Pass, the dogs had been condemned to inactivity. They were not allowed to rove freely as before, carrying food and help to stranded wayfarers, and instead a great cage had to be constructed at the monastery where the dogs were confined. They became an object of curiosity, attracting hundreds of visitors as if to a zoo.

They were always affectionately attended by their guardian and servant, Brother Cyrille, who declares that an injustice has been done to them and that the dogs are not dangerous.

It was with great joy that Brother Cyrille learned that monks had constructed a refuge at 5,000 meters altitude near Lhasa in Tibet and that they were eager to accept the services of the Saint Bernard dogs to do relief work in the Himalayas. Brother Cyrille sought permission of his Prior to take his dogs to Tibet.

Laying In Supplies

U.S. War Department Has Many Tons Of Tin Stored

The United States, too, is laying in supplies in case of war. For the first time in recent history the U.S. War Department is quietly building up substantial stocks of tin. At the moment the metal, which is being stored temporarily in an Army clothing warehouse in Brooklyn, N.Y., amounts to about 1,500 short tons, worth some \$1,200,000. Reports are that after the new military appropriations go through the total may climb as high as 20,000 tons. Behind the move is this fact: practically all tin vital in munitions manufacture, must be imported, and the U.S. is afraid an emergency might cut it off from supplies.

Tunnel Under Channel

Prime Minister Chamberlain Is Opposed To Idea

The perennial dream of a tunnel linking Great Britain and France was raised in the British House of Commons as a possible avenue of wartime escape. The idea was promptly rejected by Prime Minister Chamberlain. "Does not the Prime Minister think that a tunnel under the Channel would prove an excellent protection for the food supplies of this country in the face of any air future menace?" Harry D. Labor, asked. Mr. Chamberlain dismissed the question with a brief, simple, "No sir."

Charlie McCarthy has become the No. 1 attraction on the air in Snow White heads the current list of motion pictures in popularity. People are getting tired of people.

In spite of the many shapes and sizes of bird beaks not one bird on earth is capable of chewing.

Britain And France Endeavor To Avert Czechoslovakian Crisis

London.—All through an anxious weekend Great Britain worked strenuously in both Berlin and Praha for peace. The situation was a little quieter but in the view of a high British authority it still remains extremely critical.

The full cabinet met in emergency session for an hour for the reported purpose of putting the whole weight of the government behind Franco-British moves to block a German march into Czechoslovakia.

Prime Minister Chamberlain decided at 10:30 p.m. Saturday to summon the urgent meeting of the cabinet.

The meeting was summoned, however, not with a view to taking grave decisions of policy but to learn the facts from Viscount Halifax, the foreign secretary.

During most of the session, it was understood, the cabinet reviewed information submitted by Lord Halifax. This information revealed the situation is so confused as to make determination of the exact truth extremely difficult.

However, tension here decreased hourly with growing conviction that British-French "stop signs" had turned Hitler to a bloodless course to get what he wants for Czechoslovakia's 3,500,000 Sudeten Germans.

Assertions and denials of frontier incidents came from both Berlin and Praha. Reports differed in regard to the relative timing of troop movements.

In her role of peacemaker, Britain takes the ground it would be unprofitable at the present juncture to attempt to avert the crisis. The first step must be to try to obtain a calmer atmosphere in which negotiations for a settlement can begin between Konrad Henlein, leader of Czechoslovakia's Sudeten German minority, and the Czech government.

The Associated Press reported many people believed Mr. Chamberlain had informed Chancellor Hitler, through diplomatic channels, that the British government considered Germany was trying to intimidate Czechoslovakia with an implied threat of armed invasion and that Britain could not be counted on of any armed conflict that might ensue.

France reaffirmed her pledge to help Czechoslovakia to the utmost under their mutual assistance pact, if Germany marched to the east.

Instructions sent to Britain's diplomatic representatives at Berlin and Praha were to make every effort for settlement. In Praha the British minister, Basil C. Newton, was in-

structed to impress on the Czech government the importance of avoiding incidents and to urge the need of a forward step towards a real settlement.

In Berlin Sir Neville Henderson, British ambassador, was instructed to urge importance of patience and moderation in press circles. Reports received in London indicate the German press is already taking a calmer attitude.

It is suggested here arbitration of the differences between Germany and Czechoslovakia might be invoked. But Germany, it is thought, may take the ground the frontier incidents have already ruled out arbitration.

All 22 members of the cabinet attended the special meeting, one of the rare Sunday sessions. In the past 12 years there have been only six such meetings summoned.

Paris, Berlin and Praha all reported some easing in the situation. The Praha press paid tribute to representations by Sir Neville Henderson to the German foreign office.

The Berlin correspondent of the Praha Journal (Rightist) pointed out news of the new British demarche to which German troop movements gave rise has not yet been published in Germany.

Berlin dispatches state "a slight détente" occurred in the international situation. It is felt in Praha the situation is easier as a result of British diplomatic activity.

Will Await Report

Before Contracts For British Aircraft Are Let Out

Montreal.—Overseas contracts for aircraft will not be let out by Great Britain until the British air mission has returned to London and made its report, Commander J. G. Weir, head of the mission, said on arriving from Ottawa.

Commander Weir said the mission, investigating the possibilities of British purchase of aeroplanes in America, was "just in the middle of the job."

Need Better Food

Wiesbaden, Germany.—German physicians warned the government it would have to provide the people with better bread, fruit and fresh vegetables. More or less synthetic bread now used has been severely criticised by doctors as not conducive to good health.

New Naval Base

To Guard Western Mouth Of The English Channel

London.—A naval base is being built on the island of Portland to guard the western mouth of the English Channel from any attack from Spanish ports.

The base, to protect, an approach used by the ill-fated Spanish Armada of 1588, has long been a secondary defence asset but achieved primary importance as a result of foreign intervention in the Spanish war and the theory that a hostile power might use Spanish ports for war-time operations.

Modernization and extension of the harbor and dockyard at Portland is already under way. Naval air squadrons soon will take over a large part of the island, including the military citadel known as the Verrine, normally garrisoned by the army.

Britain's largest warships can anchor in the harbor, entering and leaving whatever the state of the tide.

Already the site of the navy's anti-submarine school, Portland soon will be the chief anti-submarine base, sheltering a powerful force of swift motor torpedo boats, submarines and bombing planes. Naval experts believe a fleet of small ships might "worry" an invading fleet much as the Spanish Armada was harried 350 years ago.

The island is heavily armed. Across Weymouth Bay, opposite Portland, a coastal defence battery, first set up in the Great War, is being remounted.

Italy Conserving Wheat

Bakers Ordered To Use More Corn Flour In Bread

Rome.—The Italian government has ordered all Italian bakers to use 20 per cent. of corn flour in making bread instead of the 10 per cent. that has been required hitherto.

The move was seen as a step towards wheat conservation and Mussolini's hope of economic self-sufficiency.

A reliable authority said the government had taken steps to purchase a large amount of wheat abroad to make up for this year's short crop. The situation was eased in part by the surplus remaining from last year's big crop.

Works Program For Britain

Government Plan Road Building To Keep Workers Busy

London.—Facing a slump when the rearmament program ends, the government already is mapping a \$500,000,000 (\$250,000,000) housing and road building program to keep workers busy and trade moving.

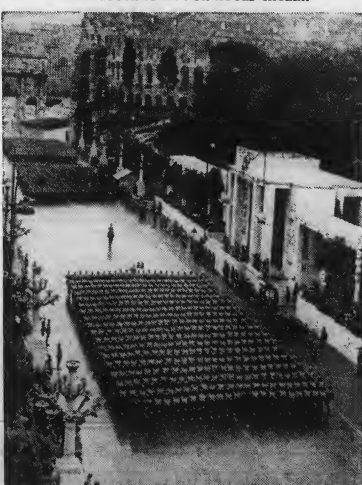

The ministry of health, which must sanction such government ventures, wants local authorities throughout the country to prepare five-year programs of contemplated work, and revise them each year.

The plan to rebuild Great Britain, some experts call it, probably will not be in operation before 1940.

Exhibit Will Remain

Saskatoon.—The F. F. Lund wild life exhibit, considered one of the main attractions at Prince Albert National Park, and which was threatened with removal, will remain for at least another year according to information received in the city.

ITALY GOOSE-STEPS FOR ADOLF HITLER

Fifty thousand Italian troops gave a great demonstration before Herr Hitler when the Führer visited Rome recently. This photograph, taken the day before Hitler's arrival, shows the full dress rehearsal on parade on the Triumphal Way.

DISMISSAL REFUSED

The dismissal of Prof. H. F. Angus of Vancouver (above), a member of the Rowell Commission, because of alleged "partisan" speeches in Toronto recently was suggested in the House of Commons but Premier King refused to accept the suggestion.

Atlantic Mail Flights

Inauguration Of Service Is Set For Late In June

London.—Inauguration of the experimental Trans-Atlantic airmail service, forerunner of regular air communication between the old and new worlds, is definitely on the books for late in June.

The craft that will essay the test, the appropriately named Mercury, is ready for the take-off the last week of next month. The ship, payload carrying component of the Mayo "pick-a-back" craft, has undergone the most rigid tests over a period of months.

First, the mother-ship, called the Maia, roared into the sky with its burden to test the manoeuvrability of the locked planes in flight. Then came the more hazardous operation of separating the two units under full throttle in mid-air. The trials were described as a complete success.

Carrying a full Atlantic load of 2,000 pounds and 1,200 gallons of gasoline, the Mercury was launched from the Maia from a height of 3,000 feet, and after flying about for a while landed safely.

Wheat In Store

Decrease Of 1,250,115 Bushels For Week Ending May 13th

Ottawa.—Canadian wheat in store for the week ended May 13 decreased 1,250,115 bushels from the previous week and 25,817,260 from the corresponding week in 1937. The amount in store was reported at 38,325,878 bushels against 39,482,993 the previous week and 64,150,238 for the week ended May 14, 1937. Canadian wheat in the United States totalled 516,000 bushels against 706,000 the preceding week and 8,439,852 last year.

Report Japanese Losses

Hankow.—The Central (Chinese) News Agency reported an official Japanese announcement made at Yenchow, in southern Shantung, estimated that 135,000 Japanese troops had been killed in China since the war began last July.

Works Program To Ease Jobless Problem Planned By Ottawa

Ottawa.—The government will strike a \$100,000,000 blow at the unemployment problem during the current fiscal year, it was disclosed when supplementary estimates were tabled in the House of Commons.

New work-creating projects will cost \$40,000,000, which is in addition to appropriations of almost the same sum in the main estimates. These works will be initiated in all parts of the Dominion.

In addition there will be \$17,500,000 for relief grants-in-aid to the provinces and Hon. Norman Rogers, labor minister, promised legislation to provide for more activity in low cost and low cost housing, and loans to municipalities on self-liquidating projects.

Hon. Charles Dunning, minister of finance, tabled supplementary estimates for a total of \$106,509,436 which will be in addition to the \$425,284,848 contained in the main estimates tabled early in the session.

At the same time Mr. Rogers, strongly pressed in recent weeks for details of the government's plans to deal with relief and unemployment, told the house the significance of certain items in the estimates dealing with public works and other matters related to unemployment.

Public works alone will take \$13,731,548 of the supplementary measures parliament will be asked to vote. There also are large votes for road building to open up mining and tourist resources. Joint work projects with the provinces, farm employment and farm rehabilitation, and youth training, will take more than \$6,000,000.

Those engaged in the fisheries industry have not been forgotten and \$500,000 will be appropriated to aid fishermen and groups of fishermen to rehabilitate themselves, with \$150,000 additional devoted to expansion of fish markets in domestic and foreign markets.

Grants-in-aid are reduced by \$2,000,000 from last year, when the vote was \$19,500,000.

A large portion of these supplementary estimates goes to meeting the deficit of the Canadian National Railways, which will take \$42,000,000. Other government-owned projects, including harbor works, Trans-Canada Air Lines, Prince Edward Island car ferry, will bring the item under this heading to \$44,413,714.

More than \$7,000,000 is to be spent on special projects of harbor and river development.

Loans and investments account for \$872,000, of which \$500,000 is to the Canadian Broadcasting Corporation and \$372,000 to the national harbors board.

Mr. Rogers said the policy of the government to stimulate basic industries and "broaden the long-range program of conservation and development" was carried out in the appropriations other than those for public works and normal outlay on wharves and breakwaters.

The minister mentioned particularly the \$1,310,000 to be spent on roads to mining districts, \$300,000 for geological surveys, \$3,000,000 for the improvement of national parks and an additional \$1,000,000 to the \$500,000 already voted for climatology of level crossings.

Another work-producing item will be the \$800,000 to be voted for the Trans-Canada Air Lines for construction and improvement of airports along the trans-Canada route, and \$500,000 to be spent in assisting

municipalities to erect airports. These votes are in addition to \$2,522,000 contained in the main estimates for the same purposes.

Youth training, for which \$1,000,000 was voted last year and which has been widely commended in the house this year by members of all parties, will be given an added impetus this year with \$2,250,000 to be voted for that purpose.

Mr. Rogers said this would be spent in training projects for unemployed youth and older persons, much of it directed toward forestry training and conservation.

Saskatchewan and Alberta drought areas will benefit from a \$3,500,000 vote for rehabilitation and water storage.

Recommendations already heard from several members this year will be met in a measure by the labor minister's announcement on housing.

In this respect Mr. Rogers said: "In accordance with the principles laid down in the recommendations of the national employment commission, legislation will be introduced at the present session to provide additional encouragement to low cost and low rental housing."

"Legislation will also be introduced to provide low interest loans to municipalities for self-liquidating projects."

"These important developments of the government's program are designed to give further stimulus to the construction industry and to provide additional employment through private and public enterprise in large concrete construction and in localities which may not benefit directly from the construction of public buildings and other works projects."

Extension of direct relief and fodder provision for dried-out prairie areas during the months of April, May and June will be cared for by a new vote of \$2,000,000.

Of new public works votes under the headings "public buildings" and "harbors and rivers," Nova Scotia will get respectively \$177,700 and \$1,055,000; Prince Edward Island, \$65,500 and \$2,202,608; Manitoba, \$138,500 and \$43,700; Saskatchewan, \$180,200 and \$27,000; Alberta, \$45,000 and \$45,900; British Columbia, \$278,650 and \$359,435.

Election Act

Would Stop Candidates From Withdrawing Names At Last Minute

Ottawa.—A bill in a Dominion election will not be able to withdraw later than 48 hours before the polls open on election day if an amendment to the new act made in the commons election committee is accepted by parliament. In the past a candidate could withdraw right up to the close of the polls.

When a candidate withdraws too late to have his or her name dropped from the ballots, the deputy returning officer in each subdivision must tell each voter when giving out a ballot, that the candidate has withdrawn. In any event the candidate withdrawing loses his deposit of \$200.

The amendment was moved by Samuel Factor (Lib., Toronto-Spadina) who claimed it was unfair to other candidates if a candidate could withdraw after most of the votes were in.

Japanese Army Claims Occupation Of City Of Suchow

Shanghai.—The Japanese army announced complete occupation of Suchow, military heart of eastern China.

The announcement said Japanese troops had taken the city and were engaged in annihilating remnants of the defeated Chinese army.

The Japanese army spokesman said a preliminary estimate was 7,000 Chinese were killed in the Suchow area, including 3,000 within the city. He asserted 50 Chinese divisions of about 7,000 each were surrounded in the Suchow vicinity, including 10 of General Chiang Kai-Shek's best divisions.

There was every indication they would be annihilated, the spokesman said.

Suchow, 350 miles northwest of Shanghai, had been the goal of Japan's "grand campaign" in eastern China. Strategically, the city was more important to Japanese armies than Nanking, once China's capital.

Its occupation permits Japanese to link the conquered northern provinces with the Shanghai-Nanking area of the Yangtze river valley and control the Chinese seaboard from Manchoukuo to Hangchow bay.

Japanese told of the Suchow victory in the face of Chinese reports from Hankow that Suchow was not imperilled and that the nearest fighting was at Hwangkong, 22 miles to the west. There, Chinese said, a Japanese attack was repulsed.

Italy's Demands For Italo-French Accord Have Been Rejected

Paris.—France warned Premier Mussolini of Italy that she and Great Britain stand shoulder to shoulder against any efforts to separate them.

Duce's latest demands for signing an Italo-French friendship agreement were rejected.

The deadlock in efforts to reach an accord paralleling the Anglo-Italian pact of April 16 was believed in many quarters here to have put southern Europe back into the same tension that hung over it in the early part of the year.

Premier Daladier himself made a statement referring to the reinforced Anglo-French friendship. At the same time, the Earl of Perth, British Ambassador in Rome, was reported to have told Foreign Minister Count Ciano of Italy that the Anglo-Italian agreement was worthless without an Italo-French accord.

Daladier's reference to Anglo-French solidarity came in a statement in which he declared France alone would defend her frontiers against "all attempts at violence."

"The London conversations (of April 26-29)," he said, "reinforced the Franco-British entente—an entente which threatens nobody, on the contrary is a means toward European peace."

It Duce's main demands for signing an accord with France—and the replies were reported as follows: Mussolini: France must close her Pyrenees frontier with Spain before Italian troops fighting in the civil war will be withdrawn.

The reply: France will close the frontier only after the Italians leave Spain.

Mussolini: Italy will conscript

troops in Ethiopia unless France promises not to recruit troops in her colonial empire.

The reply: France refused and insisted on recruiting 60,000 additional colonial soldiers.

Maxim Litvinoff, Soviet Russian foreign commissar, still was in Paris, determined to keep a way open for passage of arms and ammunition into Government Spain as long as Italy keeps her troops with the insurgents.

London.—Sir John Simon, chancellor of the exchequer, declared in the House of Commons that Italy "fully and fairly" had kept her Anglo-Italian friendship agreement pledges.

Sir John denied Premier Mussolini had "materially" increased his aid to Spanish Insurgent General Franco.

Wedgehead Denn, Labor, declared the British government had ditched France and was pressing Premier Daladier to abandon France's defensive pact with Soviet Russia while Germany was "organizing air bases in northern Spain."

Sir John admitted Prime Minister Chamberlain's eagerness to negotiate with Rome had been attacked as "giving way to baseless fear." He added, however, it was necessary to make peace with Italy in a pact which was "warmly approved in most countries."

Kingsley Griffith, opposition Liberal, declared Italy's attitude on non-intervention in Spain was "humbug."

"We who depend so much on the Mediterranean are to give another power (Italy) the right to dictate exactly what form of government is to exist in Spain," he said. "That is permission we didn't grant Napoleon, who was a far greater man than Mussolini."

"Your Favorite Store"

Main Street, Coleman

LOCAL NEWS

Steve Ondrus, who is teaching at Todd Creek school, was in Coleman for the week end and the holiday.

St. Alban's church service on Sunday at 7 p.m., conducted by the Rev. Mr. Hague. A vestry meeting will be held following the service.

A tea and pantry sale in aid of St. Alban's Ladies Guild will be held at Mrs. Halliwell's home on Saturday, May 28 from 3 to 6 p.m.

Bob Emmerson, in competition with two others, won the running high jump at Bellevue sports on Tuesday. The height was five feet, three inches.

Alan Short will spend the summer months at the Consolidated Mining & Smelting Co. plant at Kimberley, as part of his course in chemical engineering at the University of Alberta.

In honor of their twentieth wedding anniversary Mr. and Mrs. Osmond Smith were guests of honor at a surprise party given at their home by a number of friends on Monday evening.

Max Fratkan, teacher of violin, had two of his Calgary pupils taking part in the musical festival at Edmonton. Several Coleman pupils would have liked to have entered, but distance prevented them attending.

Lorenzo Richard and Edward Fisher, of Bellevue, are embarking on a business venture of supplying pasteurized milk to the people of the Pass towns. The name of the new company is Medco-Sweet Pasteurized Milk Co.

Lew Hurlbut, salesman of General Electric appliances for Pattinson Hardware, is a bandman of note, and on Tuesday played with Bellevue band. He should be a valuable acquisition to the local band, having many years experience in bands and orchestras.

There were several steam coal mine managers and proprietors in town on Wednesday. John A. McLeod, former superintendent of International mine; John Shanks, of Nordegg Collieries and W. J. Dick, of Cadomin Coal Co., spent a day here.

In Memoriam

WILSON—In memory of William Wilson, killed at the International mine, May 28, 1929.
He lives in the land of glory
Midst the blue and gold of the sky.
—Remembered by Mrs. S. Penney and daughter Alma.

WILSON—In memory of William Wilson killed at International mine, May 28, 1929.
"Fond memories linger."
—Ever remembered by Mr. and Mrs. Elph. Hill and Mr. and Mrs. Ernest Hill.

NICHOLAS—In Loving Memory of our dear son and brother, Tony Nicholas, who died May 26, 1938.
Some years have passed, dear brother,
Since you were laid to rest;
And those who think of you today
Are those who love you best.
—Sadly missed by Father, Mother, Sisters and Brother.

COLEMAN SCHOOL DISTRICT NO. 1216

FORM C (Section 18)

NOTICE OF SITTING OF COURT OF REVISION

NOTICE IS HEREBY GIVEN that the assessment portion of the assessment and tax roll for the Coleman School District No. 1216 of the Province of Alberta has been completed and the same may be examined at the Town Office, and the Board of Trustees of the said School District, will sit as a court of revision to hear assessment complaints at the High School on the 18th day of June, 1938, at the hour of 7 o'clock p.m. And no person who does not appear at the said time and place in person or by agent, or has not sent to such court a document setting out in detail the grounds of complaint, will be entitled to appeal from the decision of the said court of revision to the district court.

Dated at Coleman, this 18th day of May, 1938.

GLADYS LEES,

Secretary.

The big increase in taxes is making ratepayers take more direct interest in the cost of operation of the schools.
